SKILLS

Front-End: React JS, Tailwind CSS, Bootstrap

Back-End: Node JS, Express JS

Database: Mongo DB, My SQL

Version control: Git and GitHub

Programming Languages: Java, Python

Hosting: Vercel

CERTIFICATIONS

JavaScript: GUVI (Google Certified)

Introduction to MERN stack: Simplilearn

React.js Workshop: scalar, Gyan Mitra

Joy of computing using python: NPTEL

Introduction to programming using python: NAAC, Inc.

Hack Odessey: Participation

EDUCATION

Mepco Schlenk Engineering College

2022-2026   CGPA - 7.95

PKN Matriculation Higher Secondary School

HSC - 91.5%   **SSLC**- 89.2%

LANGUAGES

English: Proficient

Tamil: Native Speaker

PROFILE

Passionate full-stack developer with hands-on experience in the MERN stack. Skilled in building secure, scalable web applications with optimized performance. Proficient in using Tailwind CSS for efficient and responsive UI design. Seeking to join a dynamic team to contribute expertise and tackle new challenges with dedication and innovation.

PROJECTS

Insight Invest — Built a Full-Stack Financial Tracking Platform

- Designed and built a MERN stack financial tracking application to analyze user's financial health.
- Implemented authentication, data storage in MongoDB, and visualized financial insights using Chart.js.
- Secured user authentication and session management using JWT for token-based authorization.
- GitHub Repo: https://github.com/Venkey45R/invest-inshight.git

Weather App — Fetched Public APIs for Real-Time Data

- Integrated two public APIs to determine user location and fetch real-time weather data based on coordinates.
- Features real-time calculations with dynamic feedback to ensure quick and accurate results.
- Optimized API response handling to improve data accuracy and loading speed.
- GitHub Repo: https://github.com/Venkey45R/weather-app

Expense Tracker — Visually Appealing Expense Tracking Tool

- Developed a MERN stack platform for users to track and manage expenses efficiently.
- Integrated Chart.js to provide interactive visual insights into spending patterns.
- Implemented user authentication, enabling secure and personalized financial tracking.
- Designed a responsive UI using Tailwind CSS for an intuitive and seamless experience.
- GitHub Repo: https://github.com/Venkey45R/mern_expense_tracker

Farm Direct Market— Empowering Farmers with Direct Sales

- Developed a MERN stack platform enabling farmers to sell products directly to consumers, eliminating middlemen.
- Implemented user authentication, allowing farmers to list products with pricing and customers to place orders securely.
- Designed a responsive UI using Tailwind CSS, ensuring seamless user experience across devices.

EXPERIENCE

Web Development Intern — eSubhalekha.com

November 2024 - March 2025

- Developed 10+ responsive wedding invitation templates using HTML, Bootstrap, and JavaScript.
- Designed modern Figma templates, aligning with requirements and brand aesthetics.
- Enhanced company's landing page performance leading to faster load time.
- Collaborated with a team of passionate developers, ensuring efficient workflow and design consistency.
